

## 4ArXS HSD

Long-life short-arc metal halide lamps

### Areas of application

- Entertainment
- Architainment

### Product family benefits

- Especially long lifespan

### Safety advice

Because of their high luminance, UV radiation and high internal pressure during operation, 4ArXS HSD lamps may only be operated in enclosed lamp casings specially constructed for the purpose. Appropriate filters must ensure that UV radiation is reduced to an acceptable level. Mercury is released if the lamp breaks. Special safety precautions must be taken. Information on safety and handling is available on request or can be found in the leaflet included with the lamp or in the operating instructions.

### Application advice

For more detailed application information and graphics please see product datasheet.
