OSRAM

LEDinspect PRO PENLIGHT 150 UV-A

Professional LED inspection light

—

150 lm + UV-A

One of the brightest penlights with 150 lumen and UV-A leak detector

Equipped with UV-A light

Integrated UV-A light function to detect any leaks

Integrated battery status display

Easy charge via USB port & DC/AC (with charging cable)

Professional penlight with UV-A leak detector

With the LEDinspect PRO PENLIGHT 150 UV-A you will discover even the smallest leaks. This inspection light impresses with its excellent illumination: Thanks to long-lasting LEDs it emits an intense white light with a color temperature of up to 6,000 Kelvin. With its robust and impact-resistant housing as well as easy-to-grip and dirt resistant surface, the lamp provides professional assistance for your workshop. Furthermore, its light-emitting diodes are optimized for UV light - thus help for example while working on air conditioners. OSRAM offers a 3 year guarantee for this inspection light.
