PARATHOM DAYLIGHT SENSOR CLASSIC A

Special LED lamps with daylight sensor, classic bulb shape

- Outdoor use in outdoor luminaires only (minimum IP65)
- Wherever constant lighting is necessary at night

-
- Short payback period thanks to low energy consumption and maintenance costs
 - Energy-saving lighting solution thanks to automatic switch off at daylight
 - Safety through automatic switch-on at darkness
 - Very long lifetime of up to 25,000 h
 - Low energy consumption
 - Easy replacement of classic lamps thanks to compact design
 - Instant 100 % light, no warm-up time
 - Light sensors detect daylight on the basis of the spectral distribution

Product features

- LED alternative to conventional lamps
- High color consistency: ≤ 6 SDCM
- Mercury-free lamps

Application advice

For more detailed application information and graphics please see product datasheet.

Ecodesign regulation information:

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.
