

BATTERYstart 260

Jump starter

≤ 4L Petrol & ≤ 2L Diesel

To jump start 12V vehicles with up to 4L petrol and up to 2L diesel engines

Fast start function

Jump-start your vehicle in approximately 60 seconds

USB-Powerbank

To charge electronic devices including smart phones and tablets

PD30W Rapid Technology

Fast Charging & Fast Recharging

Fast Charge 9000mAh Lithium Starter

Jump-start your vehicle in approximately 60 seconds and recharge the device and other mobile devices in no time thanks to the quick-charge function. The BATTERYstart 260 is designed to jump-start 12V vehicles with up to 4L petrol and up to 2L diesel engines. It has a powerful 9000mAh lithium battery with fast charging function. In addition, the device has safety clamps a reverse polarity, short circuit and overvoltage protection. Weighing only 720g, the device is easy to handle and operate. The compact size fits well in a glove compartment and the included storage bag serves to protect the device and for practical storage. A torch is also integrated, which can be used to illuminate the engine compartment in poor lighting conditions or at night.
